PROFESSIONAL SUMMARY

Finance and Reconciliation Professional with 5+ years of experience in Fund Accounting, Financial Reporting, Portfolio Administration, Investment Operations, and Asset Servicing within global financial services environments. Expertise in performing cash, position, trade, market value, cost, and income reconciliations, including break investigation, exception management, root cause analysis, and timely resolution of outstanding items. Experienced in NAV calculation and review, financial statement preparation, accrual accounting, dividend and capital gains processing, corporate actions, custodian services, and employee benefit plan reporting.

Demonstrated ability to manage month-end and quarter-end reporting activities, support audit and control processes, maintain regulatory compliance, and deliver high-quality client reporting within SLA-driven environments. Strong stakeholder management and client servicing skills with experience collaborating across operations, accounting, custodians, and client teams. Proficient in Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP), Intellimatch, Bloomberg, JIRA, and investment operations platforms, with a proven track record of driving process improvements, operational efficiency, and risk mitigation.

WORK EXPERIENCE

Principal Global Services – Pune, India

Process Specialist | May 2024 – Present

- Performed Level 2, 3, 3.5, and 4 Fund Accounting activities for US clients, managing complex financial reporting, portfolio accounting, and investment operations with high accuracy and regulatory compliance.
- Prepared and reviewed monthly, quarterly, and annual financial statements, ensuring compliance with reporting standards, internal controls, and client-specific requirements.
- Calculated, validated, and reviewed Net Asset Value (NAV) for external funds, performing detailed analysis and exception management to ensure reporting accuracy.
- Conducted cash, position, trade, market value, and transaction reconciliations, investigating reconciliation breaks, performing root cause analysis, and resolving exceptions within SLA timelines.
- Supported portfolio administration activities, including investment accounting, custodian services, asset reporting, and employee benefit plan reporting.
- Executed trade lifecycle activities, including trade capture, validation, settlement support, and post-trade controls to ensure operational efficiency.
- Prepared Limited Partner (LP) reports, performed control checks, and supported audit reviews to maintain data integrity, financial accuracy, and operational risk controls.
- Reviewed and processed corporate actions, income events, and investment-related transactions, ensuring accurate accounting and client reporting.
- Supported client migrations, process transitions, and stakeholder communications while ensuring seamless operational delivery and adherence to service standards.
- Acted as Subject Matter Expert (SME) for knowledge transfers, SOP creation, process documentation, quality reviews, and training of new team members.
- Utilized advanced Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP, data analysis, reporting automation) to support financial reporting, reconciliation activities, management reporting, and process improvements.
- Collaborated with internal stakeholders, auditors, custodians, and client teams to resolve complex issues, improve operational controls, and enhance reporting efficiency.

FIS Global Services – Pune, India

Associate II – Fund Accounting | Jan 2023 – May 2024

- Processed ACH and AIP financial transactions while ensuring accuracy, compliance, and adherence to established SLAs and operational procedures.
- Established, validated, and maintained client banking information to support account setup, payment processing, and transaction execution activities.
- Reviewed and verified account documentation received through scanned, emailed, and faxed channels, ensuring completeness, accuracy, and regulatory compliance.
- Performed quality control reviews on financial transactions, client records, and operational processes to maintain data integrity and minimize processing errors.
- Supported account maintenance functions, including data indexing, record updates, document management, and client information administration.
- Investigated and resolved operational exceptions and documentation discrepancies, ensuring timely processing and service delivery.
- Collaborated with internal teams to ensure adherence to compliance requirements, operational controls, and risk management procedures.
- Contributed to process improvement initiatives that enhanced operational efficiency, reduced turnaround times, and improved service quality.

- Maintained high levels of accuracy while processing time-sensitive financial transactions in a deadline-driven environment.

Atos Syntel – Pune, India

Associate – Fund Accounting | Sep 2021 – Jan 2023

Processed mutual fund income activities, including daily pricing and weekly, monthly, and quarterly accrual calculations, ensuring timely and accurate accounting treatment.

- Managed the processing and reconciliation of dividend income, long-term capital gains, short-term capital gains, and other mutual fund distributions in accordance with client requirements and operational controls.
- Performed daily cash, income, and transaction reconciliations using Intellimatch, investigating and resolving reconciliation breaks to maintain data accuracy and reporting integrity.
- Executed payment postings and income allocations to client accounts within SLA timelines, ensuring accurate application of taxes, fees, and fund-related transactions.
- Collaborated with clients through regular review calls to investigate discrepancies, resolve outstanding reconciliation items, and ensure timely closure of exceptions.
- Utilized JIRA ticketing systems to track, investigate, and resolve cash and income-related breaks while maintaining accurate mutual fund records.
- Supported month-end and period-end financial reporting activities through accrual validation, transaction review, reconciliation controls, and exception management.
- Contributed to process improvement initiatives by identifying recurring reconciliation issues, performing root cause analysis, and enhancing operational efficiency.
